XP System Feature

The XP System feature tracks and rewards user XP levels in the bot. Leveling up grants users BlahajCoin currency.

XP Gain

- Users earn 1 XP for each message they send.

Leveling Up

- Each user starts at level 1 and requires XP equal to their current level multiplied by 100 to level up.
- Upon leveling up, users receive a reward of BlahajCoin currency equal to their new level.
- Level progress is reset to 0 after leveling up.

Commands

`/level`

Command to check the XP level of a user.

- **Usage**: `/level [user]`
  - `user` (optional): Mention the user to check the level of. If not provided, the command checks the level of the message author.

Example

`/level @username`

This will display the XP level and progress to the next level for the mentioned user.
